METAL PRINTS

Metal Prints, the most vibrant of all print media, are created by infusing an image onto a 1mm thick aluminum. All Metal Prints are finished with a protective white gloss, which keeps your image water and dust resistant. The end result is an intensely colorful, crisp, and a stunningly radiant finished print. For tabletop displays select our Easel, or opt for a stunning Wall Decor piece by selecting a Floating Mount, Black Shadow Mount or Stainless Steel Standoffs.

WOOD PRINTS

Wood Print Wraps are a striking art medium, printing an image directly onto the surface of maple wood. Artsy's Wood Print Wraps are printed without the use of white ink, so wood grains will be featured prominently in lighter areas of each photo. Each piece includes sawtooth notches on each edge for easy and convenient hanging, and is protected by a premium matte laminate. With no two woods alike, these wraps are truly a one-of-a-kind piece of wall decor that will never go out of style.
